2016 WORKBOOK: 33 YEARS OF TENACITY

VERTICAL LIMIT

ergodyne

WORK GEAR

est. 1983

EVOLUTION OF SAFETY.

Every so often there comes a tectonic shift that alters the current order of things: protoplasmic ooze becomes self-aware and eventually creates Hot Pockets. A meteor takes a left turn at Albuquerque and slams into the Yucatan giving the terrible lizards a permanent eviction notice. Al Gore invents the Internet. The list goes on. Well, we may not have instigated an Extinction Level Event (you're welcome, by the way) but we'd like to think that sometime around that 80's epoch of Madonna, The Noid, and Beverly Hills Cop, we caused something of a ripple. And that's all it takes, really. A ripple one year is a tidal wave the next. And before you know it, the world you knew is altered forever. Now, faithful workers and safety pros, you have access to a cornucopia of the finest safety solutions we have to offer. For years, we've strived to innovate and challenge the status quo. With a little help from our friends, natural selection, and a heapin' helpin' of tenacity, we've put together a war chest of safety implements to ensure you've got what you need to get the job done. Over the next couple hundred pages, you'll bear witness to a new era of Ergo Evolution.

PPE: PROTECTION. PRO

**THREE PRODUCT PILLARS, ONE PURPOSE.
MAKE THE WORKPLACE A BETTERPLACE.™**

Life is good when everything is humming together in concert. Three lines of a haiku: art. Three chords for Johnny Ramone: rebellion. Three flavors of Neapolitan ice cream: happiness. We understand that kind of synchronicity should be embraced and aspired to. And it's in that same spirit that we endeavor to provide you with a sweet song of PPE. Three pillars of safety upon which our Tenacious Work Gear® is built. We strive to provide Protection, increase your Productivity and help manage the Elements you face daily in the fields, mines, oceans, and deserts. We've put these interconnected safety pillars together to form a more perfect union and guarantee that you'll be covered from every angle no matter what your field excellence may be. You can trust that our years of expertise, drive, and innovation, combined with leading edge technology, will guide you to peak PPE performance. Let's Make the Workplace a Betterplace™.

LEARN IT.

LIVE IT.

LOVE IT.

YOU AND THE ERGO WORKBOOK.
A LESSON IN USAGE.

Much like Halloween, the Super Bowl, and World Lizard Day, our workbook is an annual event. And this year we'd like you to meet the new boss. Not the same as the old boss. It's slick, sleek, and tricked out; we've improved upon a classic. Check out our condensed features and benefits on our product pages (just the facts, ma'am), as well as new indexes and tech tags to make cross referencing as easy as writing a new Fast and Furious movie. Dig in!

TECH TAGS

Sure, it looks cool. But what does it do? Use our handy tech tag icons and wonder no more.

PRODUCT NAME

What's in a name? How about trust, reliability, quality, integrity, accountability, notoriety, recognition? Must we go on?

STANDARDS CERTIFICATION

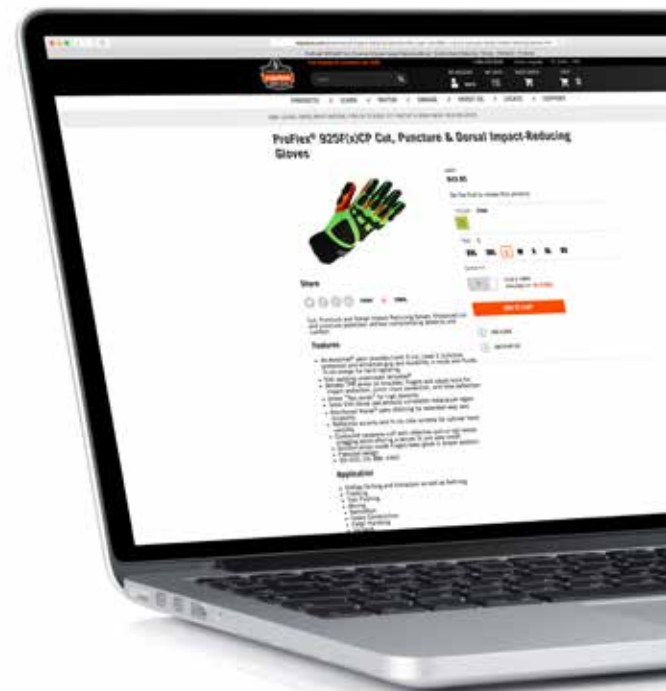

If a product complies with ANSI, ASTM — or graduated from any other school of hard knocks, you can bet we'll make a note of it.

PRODUCT PHOTO

Our gear is ready for its close-up, Mr. DeMille. And we've made sure to get its good side.

PATENT DESIGNATOR

Thomas Edison had 1,093 of these bad boys. We're hot on his trail.

MODEL NUMBER

If we remember correctly it goes Kingdom, Phylum, Class, Family, Order, Genus, Model Number. Right?

ORDER MULTIPLE

You're ordering by the case, my friend. Check here for case quantities and minimum order requirements.

FEATURES & BENEFITS

If it can withstand the freeze, block out the sun, or lay golden eggs, we'll let you know about it.

ITEM NUMBERS

Item Numbers – the universal language. Use these to speak our native tongue and get exactly what you need.

TECH TAGS

PERFORMANCE AND REGULATORY TAGS

We read somewhere that a symbol is an “object that condenses maximum resonance into minimum space.” Okay, we’re going with that. Look for these symbols to make some sense of the performance and regulatory characteristics that make our Tenacious Work Gear® drop kick the competition through the goal posts of life.

NOW THE CLASSROOM COMES TO YOU.

ALL THIS KNOWLEDGE CAN'T BE CONTAINED IN FOUR WALLS.
WE'RE HITTING THE ROAD WITH OUR TAILGATE TALKS™.

Remember when the bookmobile used to roll into your local library and pass out tales of Goldilocks and Rip Van Winkle? Yawn. We feel your pain. Thus we humbly (not) present the Tenacious Assault Vehicle. Ready to thunder into town and give you the lowdown on the hazards and risks you encounter every day on the job. The TAV is a fully-loaded, fully-functional safety demo on wheels. With our top flight Tenacious Work Gear® on board and more know-how and training than you can shake a dipstick at. Get ready, we're rumbling to your town soon and you don't want to miss these Tailgate Talks™.

TAILGATE TALKS™

VIBRATION-REDUCING SERIES

DIFFERENTIATED BY DESIGN:

CERTIFIED PROTECTION

Choose from four ANSI/ISO-certified gloves for maximum protection from harmful vibration and impact.

PIGSKIN LEATHER CONSTRUCTION

Durable pigskin leather palm construction built to stand up to the toughest applications.

GEL PALM

Patented 3-layer Nu²O₂ gel or visco-elastic gel polymer palm reduces vibration and dampens shock and impact.

NEOPRENE KNUCKLE PAD

Padded neoprene knuckle area protects while providing maximum comfort.

OPEN-CENTER STAY™

Built-in patented Open-Center Stay™ options provide additional support and relief from repetitive motion discomfort.

PROFLEX® GLOVES:

DORSAL IMPACT-REDUCING SERIES

DIFFERENTIATED BY DESIGN:

FULL DORSAL PROTECTION

Molded rubber (TPR) armor and segmented foam protect the entire back of hand from pinches, crushes, and bruising blows.

MAXIMUM DEXTERITY

Patented finger protection is designed to flex vertically, working with the natural motion of the hand to reduce fatigue.

GRIPPING PALMS

Choose abrasion-resistant reinforcements, rugged Armortex®, or foam-dipped options for maximum grip and durability.

HIGH VISIBILITY

Hi-vis materials on both dorsal and palm sides combine with reflective accents to keep hands visible and allow for clear signaling.

CUT PROTECTION

Choose from Level 1, Level 3, or Level 5 cut-resistant options for protection in a variety of applications.

PROFLEX® GLOVES:

TRADES SERIES

DIFFERENTIATED BY DESIGN:

RUGGED REINFORCEMENTS

Tena-Grip™ reinforcement zones on palm, thumb saddle, and fingertips resist abrasion and provide superior grip on tools and equipment.

FULL OR FRAMING

Full-finger gloves offer maximum protection while a framing finger configuration combines protection with maximum dexterity for handling fasteners.

NEOPRENE KNUCKLE PAD

Padded neoprene knuckle area protects while providing maximum comfort.

PADDED PALM

Premium EVA foam palm pad helps dampen shock and impact.

TECHNICAL OPTIONS

Choose TX Touch Screen fingertips, Cut Level 5 protection, or genuine leather zones.

BLOOD IS THICKER THAN WATER. OUTDRY® STOPS 'EM BOTH.

The ProFlex® 7300D with OutDry® is 3rd party tested to ASTM 1670, the standard for synthetic blood penetration. The OutDry® membrane passes the ASTM 1671 test for surrogate microbe penetration to protect from harmful disease-causing pathogens, providing protection compliant with Federal Rule 29CFR 1910.1030 that addresses occupational exposure to blood or other potentially infectious materials.

PROFLEX® GLOVES:

THERMAL SERIES

DIFFERENTIATED BY DESIGN:

REINFORCED PALMS

Durable, abrasion-resistant palm, thumb saddle, and fingertip reinforcements provide grip and slip-resistance in chilly temps.

TERRY THUMB WIPE

Soft terry thumbs provide a comfortable place for wiping brows...or noses. Hey, it's cold outside!

3M™ THINSULATE™ INSULATION

3M™ Thinsulate™ insulation utilizes uniquely thin microfibers to trap more air, keeping workers' hands warmer in even the coldest applications.

PULL TABS

Convenient pull tabs allow for easy on/off.

WATERPROOF TECHNOLOGY

Choose a breathable waterproof insert or bonded OutDry® technology to keep hands dry when Mother Nature has other ideas.

PROFLEX[®] KNEE PADS

**YOUR GIG IS ABOUT TO GET
A WHOLE LOT CUSHIER.**

PROFLEX® KNEE PADS

Want a cushy gig? The kind of gig that doesn't wear you out, wear you down, and suck all your vim and verve? We are happy to provide. Turn any task that could be gnarly on your knees into a patella-pleasure-cruise with ProFlex® Knee and Kneeling Pads. You'll be able to endure even the most grueling task without sacrificing your ability to stand up straight the next day. And you don't even have to be the boss's nephew.

PROFLEX® KNEE PADS:

GEL SERIES

DIFFERENTIATED BY DESIGN:

GEL OPTIONS

Choose injected gel for rugged, all-day cushioning or light-weight gel for highly mobile comfort.

INNOVATIVE CAP DESIGN

Unique cap design distributes the weight across the entire knee, relieving direct pressure on the patella for more comfortable kneeling.

UNIQUE STRAP STYLES

Different straps do different things: sometimes they're designed to deliver a secure fit, sometimes to relieve discomfort on the back of your knee. Take a look, you're sure to find a configuration tailored for you.

357	Gel	Short TPE Rubber			
367	Gel	Low Profile TPE Rubber			
350	Gel	Nylon and Neoprene Fabric	NBR & EVA Gel Foam	Hook & Loop	Superior cushioning with fabric cap to kneel on delicate as well as hard or rough surfaces.

PROFLEX® KNEE PADS:

STANDARD SERIES

DIFFERENTIATED BY DESIGN:

CLOSURE OPTIONS

Select non-marring hook and loop closures or infinitely variable buckles that will not snag on carpet or pick up grime. Both closures adjust quickly for a comfortable fit.

MULTIPLE CAP STYLES

Choose the right cap for the application. Whether you want to rock, lean, slide, or stay stable, there are many cap sizes and shapes to choose from.

NBR FOAM PADDING

Inside the 840D nylon fabric cover is 12mm NBR foam padding cut to hug the knee for superior cushioning and kneeling comfort.

PROFLEX® KNEELING PADS:

KNEELING PAD SERIES

DIFFERENTIATED BY DESIGN:

NBR FOAM

Made from high density NBR foam that won't bottom out for long-lasting support and comfort.

BEVELED EDGE AND SAFETY ORANGE STRIPING

Beveled edge and safety orange striping on certain models for visibility of the worker and kneeling pad.

PETROLEUM RESISTANT AND SILICONE-FREE

High-quality foam will not break down in the harshest of applications; silicone-free allows for safe, non-corrosive usage.

CONVENIENT HANDLE

Handle cut-out for easy carrying and convenient for hanging storage.

BACK SUPPORT SERIES

DIFFERENTIATED BY DESIGN:

V-SHAPED DESIGN

V-shaped design helps support the natural shape of the human body for better fit and ultimately better effectiveness.

POWER PANEL POSITIONERS™

Innovative positioners keep the power panels in place so they are ready to be activated when needed and do not cause a hazard hanging behind the wearer.

STICKY FINGERS® STAYS

Patented Sticky Fingers® stays help keep the back support in position.

PROFLEX® SUPPORTS:

WRIST SUPPORT SERIES

DIFFERENTIATED BY DESIGN:

ANTI-ODOR TREATMENT

Body-side surfaces are treated to eliminate odor-causing bacterial growth.

OPEN-CENTER STAY™

Patented design includes open center to reduce pressure on median nerve while the contoured design follows the wrist's natural shape.

ELASTIC OR NEOPRENE CONSTRUCTION

Depending on how much support is needed, choose between neoprene or woven elastic wrist supports with straps that limit flexion or extension movements.

PATENTED OPEN-CENTER STAY™

Unlike traditional stay configurations positioned directly over the carpal tunnel, our stay is uniquely designed with an open center to reduce pressure on the median nerve. With a contoured design that follows the wrist's natural shape, the patented, molded stay offers greater worker comfort and compliance.

ANSI-COMPLIANT MATERIALS

GloWear® Hi-Vis Apparel is made of ANSI-compliant reflective and background materials to ensure the highest performance.

GLASS BEAD REFLECTIVE MATERIAL

Glass bead reflective tape meets the ANSI 107 standard and improves visibility of the worker.

GARMENT DESIGN OPTIONS

Choose between zipper and hook and loop closures, mesh and solid fabrics, two-tone or not...you've got options!

ANSI'S GENERAL THEORY OF CONSPICUITY

MUCH KNOWLEDGE IS CONTAINED IN A SIMPLE EQUATION: 2 + E = 3!

You can obtain Class 3 compliance in one of two ways. The most obvious is to buy an ANSI 107 Class 3 compliant garment. The less obvious—but more popular route—is to wear a Class 2 garment (usually a vest) and pair it with Class E compliant bottoms. Either way, you are clearly high class.

MAKE IT CUSTOM!

HERE'S THE DRILL: CUSTOM LOGO PROGRAM

Because we have so many options and styles of products available to custom logo, we can do almost anything.

YOU GIVE US:

- Suitable digital art files or camera-ready artwork. (EPS-format files work best but large, hi-res TIF or JPG files [300+ dpi] work too.)
- All necessary PMS/Pantone colors.
- Approval of a digital mock-up.

WE GIVE YOU: A product with a look all your own.

Minimums vary based on the type of product. Don't worry, it's low.

Call Ergodyne Customer Support today to answer all of your custom logo questions... We'll make it easy for you to look good!

ALWAYS DESIRED.**

SKULLERZ® EYE PROTECTION

Say hello to a piping hot, new selection of advanced ANSI-approved eyeball protection. Offering ferocious frame styles for every taste, our new Skullerz® Safety Glasses are Norse-god inspired and forge-fired to withstand even a ballistic impact assault below the brows. With comfort frames, optional Fog-Off™ technology, a host of precision view polycarbonate lenses, and an ultra-lightweight design, these babies don't just throw down the gauntlet on ordinary workplace shades – they come in low out of the rising sun and firebomb the tree line of every workplace eye protection brand that came before them.

SKULLERZ
EYE & HEAD
PROTECTION

ANSI & MIL-PRF STANDARDS WORKPLACE REQUIRED, MILITARY INSPIRED.

On the job when the sledding gets tough, there's no time for the specs not to meet the specs. Luckily, Skullerz® Eye Protection goes above and beyond the call of duty to keep vision clear, protected, and ready for action. Full ANSI Z87.1+ High Impact compliance comes standard – but so does MIL-PRF Ballistic Fragmentation Class 1 protection, the US Military's test for spectacle impact protection. Stand and deliver.

MIL-PRF 32432
Impact Steel Projectile

ANSI Z87.1
Impact Steel Ball

IMPACT: HOW FAST IS FAST?

Another day at battle is always unpredictable and might be full of the slings and arrows of outrageous fortune. Whatever the job throws, shoots, or flings, it's essential to be ready for action. Luckily, you chose Skullerz® Eye Protection. From dangerous tools to everyday dust and debris, you can count on Skullerz® Eye Protection for tested, proven protection. We'd still watch out for that rogue barbarian though.

Pneumatic Nail Gun	490 ft. // 149m sec
Nolan Ryan Fastball	148 ft. // 45m sec
Catapult	843 ft. // 257m sec

All Skullerz® models are independently third-party tested at COLTS Laboratories.  COLTS | Laboratories™

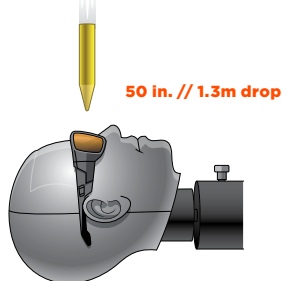

SKULLERZ® EYE PROTECTION:

THE ANATOMY OF EYE DEFENSE.

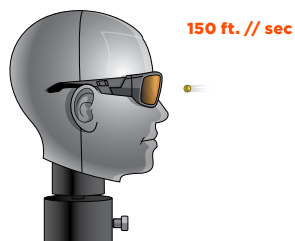

DIFFERENTIATED BY DESIGN:

ANSI Z87.1

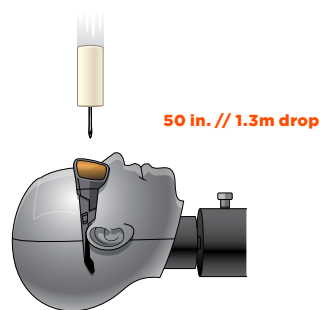

ANSI Z87.1 is the US standard for Personal Eye and Face Protection Devices. This standard provides the general performance requirements, testing methods, and required markings for safety spectacles, goggles, faceshields, and welding helmet lenses. All Skullerz® Eye Protection models comply with the spectacle requirements of ANSI Z87.1 and are marked with a "+" to denote compliance with the High Velocity Impact Test. The Loki model also meets ANSI goggle requirements when worn with the optional elastic strap. All Skullerz® models are independently third-party tested at COLTS Laboratories.™

ANSI STANDARDS. TESTED ON DUMMIES, CAUSE YOU AREN'T ONE.
**ANSI Z87.1 Sec. 6.2.2
High Mass Impact Test
Simulates Blunt Force**

- 18 oz. // 500g steel "missile" dropped from 50 in. // 1.3m onto lenses
- Lenses must not puncture, crack or shatter
- All Skullerz® Eye Protection pass this test for spectacles

**ANSI Z87.1 Sec. 6.2.3
High Velocity Impact Test
Simulates a Shotgun Blast**

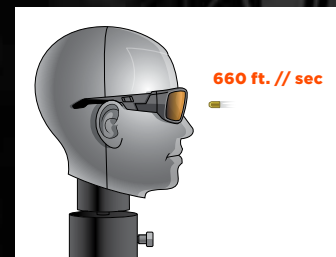

- Steel ball shot @ 150 ft. // 46m per second for glasses; 250 ft. // 76m for goggles
- Lenses must not puncture, crack or shatter; frames must retain the lenses and not break
- All Skullerz® Eye Protection pass this test which is noted with a "+" on the lens; Loki passes for both spectacles and goggles

**ANSI Z87.1 Sec. 6.2.4
Penetration Test
Simulates a Poke in the Eye!**

- Weighted needle dropped from 50 in. // 1.3m onto lenses
- Lenses must not puncture, crack or shatter
- All Skullerz® Eye Protection pass this test for spectacles

**MIL-PRF 32432 BALLISTIC
FRAGMENTATION - CLASS 1**

MIL-PRF-32432 is the US Military Combat Eye Protection System (MCEPS) Performance Specification for eyewear. One key performance metric is the Ballistic Fragmentation Protection Test. All Skullerz® Eye Protection meet the rigorous requirements of this test for Class 1 (spectacles).

**MIL-PRF 32432 Ballistic
Fragmentation - Class 1
Simulates Shrapnel Fragments**

- Steel projectile shot @ 660 ft. // 201m per second
- Lenses must not puncture, crack or shatter; frames must retain the lenses and not break
- All Skullerz® Eye Protection pass this test for spectacles

HIGH CONTRAST; WATER

NON-POLARIZED LENS

DARE THE GLARE Polarized lenses utilize a special filter coating to block out reflected light from below and glare from above, allowing only direct light to enter the field of vision, making them a great choice for applications around water, shiny equipment, or anywhere glare and reflection elimination are key to safety and comfort. Choose from polarized smoke, polarized copper, or polarized G15 (a unique and soothing green tinted lens first developed for the US Air Force). I can see clearly now the glare is gone.

TYPICAL LENS

GO ON, FOG-OFF™ For those applications with extreme temperatures (and drastic changes in temperature), maintain a clear field of vision by choosing clear or smoke lenses with Fog-Off™ anti-fog technology that will not wash or wear off. Meets ATSM 659 Resistance to Fogging test requirements.

SKULLERZ®
EYE & HEAD
PROTECTION

SKULLERZ® EYE PROTECTION:

EYE PROTECTION SERIES

DIFFERENTIATED BY DESIGN:

ANSI // MIL-PRF BALLISTIC IMPACT PROTECTION

All Skullerz® models in all lenses meet both ANSI Z87.1+ High Velocity and MIL-PRF 32342 Ballistic Impact protection requirements.

KRYPTEK® CAMO

Stand out by blending in with Kryptek® - the baddest camo patterns available.

ODIN

99.9% UV PROTECTION

All Skullerz® lenses, even clear, provide protection from 99.9% of harmful UVA // UVB // UVC rays.

LENS OPTIONS

Choose from up to 13 different lens options including glare-busting polarized and inherent Fog-Off™ anti-fog technology that won't wash or wear off.

DAGR

PATENTED BLADE STYLE DESIGN

Sleek blade style frame ensures excellent air flow and is designed to move easily from workplace to the weekend.

SKULLERZ® HEAD PROTECTION

Let's face it, sometimes you can't avoid getting Three-Struck on the job – which usually means a sharp shot to the coconut. That's where Skullerz® Head Protection steps in to take the sting outta the bonk and turn accidental skullduggery into a minor cranial inconvenience. All models feature thermo-formed foam padding inside a removable, patented shell and a smooth lid with mesh venting for that comfy covert fit. Available in micro brim, short brim, and baseball brim-styling, there's even a built-in LED option for those bright bulbs who are tired of holding a flashlight in their teeth. Always thinking one step ahead.

HEAD PROTECTION

SKULLERZ®:

BUMP CAP SERIES

DIFFERENTIATED BY DESIGN:

PATENTED SHELL

Flanged shell flexes for fit and comfort while ribs provide stability and support; innovative ventilation system allows the shell to breathe.

EN 812 COMPLIANT

All Skullerz® Bump Caps are tested and certified to the rigorous criteria of EN 812, the world's only bump cap standard.

COOL LID

Choose from 80mm, 50mm or 30mm (30mm in 8950 only) brim lengths in a variety of color options, all with mesh venting panels and reflective accents.

8960

LED LIGHTING TECHNOLOGY

Enhance worker productivity and ditch the bulky headlamp for 4 super-bright in-brim LEDs.

INNOVATIVE CLOSURE

Elastic // hook and loop closure stretches and is angled to provide a snug, secure fit.

FOUR SIMPLE STEPS TO SAFER WORK.
OBJECTS AT HEIGHTS

PLAN YOUR WORK.

TRAPPING

Trapping refers to retrofitting a connection point onto a tool for a safer attachment point. Most tools do not come with a secure attachment point built into the tool. In these situations, a secure attachment point must be created.

**ONE STEP
 TOOL TRAPS**

3770

 ELASTIC TOOL TAILS

3755/3750
 TAPE TRAPS

3723/3724/3726
 COLD SHRINK TRAPS

TETHERING

Once all tools have a connection point the appropriate tethering solution can be selected. Consider the following factors to select the appropriate solution: weight of tool, type of connector(s) on lanyard, clearance, reach, and snag hazard.

**WRIST

WORK YOUR PLAN.

TOPPING

There are different ways of transporting equipment to heights and a variety of containers used to store the equipment while in transit. Regardless of what container is used, there are three critical best practices: hands free climbing, closed container, and weight rating.

LEARN TO TRAP, TETHER AND TOP IN OUR 52 PAGE BIBLE OF OBJECTS AT HEIGHTS SAFETY SOLUTIONS KNOWN AS THE DROP COPS® GUIDE.

SQUIDS®
LANYARDS & WORKSITE ORGANIZERS

LOVE STINKS BUT GRAVITY HURTS.

SQUIDS® LANYARDS & ORGANIZERS

An apple dropping off a tree during a mathematician's summer idyll in the English countryside is one thing. Sledgehammers plummeting forty stories onto a busy worksite is a recipe for an ambulance. Spare yourself that sinking feeling with our smorgasbord of lanyards and organizers. Squids® Lanyard and Organizers trap, retract, extend and secure your gear so it's always in the last place you left it.

RETROFIT-ABILITY

If your tool doesn't have a clean connection point for tethering, use our retrofit Tool Tails™ and Tool Traps™ to create one. A quick application gives you an easy safe point to connect.

FUNCTIONAL LANYARD CHOICES

Options that include coils, retractables, and swiveling features give the user choices for specific tools and environments to reduce tangles, snags, and hang ups.

SAFETY WITHOUT SACRIFICE

Some tools require specific solutions that allow their primary purpose to function properly. Instrumentation and Power Tool Traps are built to give you tether ready tools without sacrifice.

FIND OUT MORE ABOUT THE TECHNOLOGY THAT GOES INTO THE FULL LINE OF ERGODYNE TOOL TETHER OPTIONS AT: WWW.ERGODYNE.COM

MAY THE “FORCE” NOT BE WITH YOU

Smart lanyard designs consider the user is often the anchor point. We don't want your tools getting you down, literally. Our elastic design is built to reduce the shock force the body feels, protecting the user as well as those below.

SQUIDS®
TETHERING SOLUTIONS:

**THE ANATOMY
OF TETHERING.**

STICK YOUR “NECK” OUT

Many tools have a “waist” or “neck” where a portion of the tool's profile gets smaller compared to thicker ends. This allows for more versatile retrofit connection points to be attached.

TOOL UP APPROPRIATELY

Choose tools that are durable and built for at-heights use. Wooden handles and other suspect designs are more likely to break and launch parts down on workers below.

SQUIDS® LANYARDS:

CONNECTOR SERIES

DIFFERENTIATED BY DESIGN:

SECURE HARDWARE

Fully enclosed plated hardware has no weak point. Made of durable metals that last, they are not bent or welded giving you confidence in the security of your retrofit connection.

3RD PARTY CERTIFIED WEIGHT RATINGS

Third-party certified with a safety factor of 2:1 to ensure the utmost in security. Connector systems applied with more than one component are tested and certified together as a system. We don't have to but we do!

DURABLE SYNTHETIC MATERIALS

Squids® Tool Tails™ and Tool Traps™ are made with high tensile strength webbing and abrasion resistant fabric to hold up in the toughest applications and prolong the life of the connector.

RETROFIT CONNECTOR VARIETY

We study and teach tool anatomy to give you options for retrofit connection points on tools that need 'em. One-step Tool Traps™ with built in connection points attach directly to the tool. Two step systems use a Tool Trap™ to capture a Tool Tail™ connection to the tool.

FUNCTIONAL MATERIALS AND DESIGNS

Squids® Tool Connectors are designed to NOT sacrifice your tool's primary use. Tool Traps™ and Tool Tails™ can be placed on the tool leaving mission critical parts of the tool ready to use. Specialty materials enhance grip and do not leave messy adhesives or residue on your tools.

LANYARDS &
ORGANIZERS

SQUIDS® LANYARDS:

CARABINER VARIETY AND SECURITY

A variety of carabiner options give you what you need for your environment - lightweight aluminum, stainless steel, non-locking, and self-locking are some of the options available to give you jobsite flexibility.

LANYARD SERIES

DIFFERENTIATED BY DESIGN:

SHOCK ABSORBING PROPERTIES

Stretch cord models exhibit shock absorbing properties limiting the force the body or other anchoring points feel when a drop occurs.

DURABLE LANYARD BODY

Whether high tensile strength webbing, reinforced stitching, or aircraft cable, Squids® Tool and Equipment Lanyards are made to hold up to the environment as well as a drop within it.

3RD PARTY CERTIFIED WEIGHT RATINGS

Squids® Lanyards are dynamically drop tested and third-party certified with a safety factor of 2:1. We don't have to but we do!

CAPTIVE EYE CARABINERS

Carabiners are designed with captive eyes to catch and hold webbing so it doesn't interfere with the connector's gate and will never be removed.

GRABBER & ACC. SERIES

DIFFERENTIATED BY DESIGN:

MODULAR ANCHORING OPTIONS

Offering a variety of mounts to anchor the grabber to your body or to a static anchor point keeping your gear where you need it, when you need it.

BREAKAWAY DESIGN

All Squids® Grabbers have a breakaway design that disconnects immediately if caught on or in something dangerous - all without damaging the grabber.

INDEPENDENT OPERATION

No matter what mount you choose, the grabber itself can be removed and used independently, attaching to D-rings, keychains, and a variety of your own inherent anchor points.

PATENTED GRABBER DESIGN

Grabber clip holds onto PPE, tools, accessories, and other items preventing dropped, lost, and foreign object concerns.

GEAR STORAGE

**ALL YOUR BAGS ARE PACKED.
YOU'RE READY TO GO.**

ARSENAL® GEAR STORAGE

This isn't your textbook line of storage. These packs, duffels, and buckets are designed, equipped, and tested for students and alumni of the school of hard knocks. Made of the toughest material, this line is designed to keep the gear you use to stay safe and productive — safe and productive. So whether you're hoisting, holding, or rolling, ask yourself, what's in your Arsenal®?

SIZING UP YOUR ARSENAL®

How big is big? How many Gary Colemans can you fit in a large 5030? You have questions... we have answers. Speaking of making your life easier... we've standardized our sizing descriptions on our products. When an Ergodyne product is logo'd, we consider that the length facing, then the width is the depth of the product and lastly the height is just that... the overall height of the product. Easy as 123...cubic inches.

So to recap, we present our sizes as L x W x H. Learn it. Live it. Love it.

ARSENAL® GEAR STORAGE:

PUBLIC SAFETY SERIES

DIFFERENTIATED BY DESIGN:

HEAVY DUTY ZIPPERS

Industrial grade double-pull zippers with improved pull tabs mean reliability and performance over the long haul; double-pulls also allow secure locking.

SIZE

Arsenal® Fire and Equipment bags offer the size you need for all your turnout gear, tower gear, or whatever else you need to haul.

HEAVY DUTY FABRICS

Abrasion resistant woven fabrics with water resistant backing; some styles offer reinforced tarpaulin base fabric to take on the wear and tear you put it through.

LOGO READY

Maltese cross or other logo can be applied to any bag.

ADJUSTABLE PADDED SHOULDER STRAPS

All Arsenal® Fire and Equipment bags come with removable shoulder straps that adjust to your preferred length and include a shoulder pad for carrying.

ARSENAL® GEAR STORAGE:

PUBLIC SAFETY SERIES

DIFFERENTIATED BY DESIGN:

HEAVY DUTY ZIPPERS

Industrial grade double-pull zippers with improved pull tabs mean reliability and performance over the long haul; double-pulls also allow secure locking.

WIDE MOUTH OPENINGS

Main compartments consist of wide access fold down openings making it easy for users to find and access equipment.

5216

INTERNAL DIVIDERS

Transitional internal dividers can be set up to the user's liking, compartmentalizing your responder equipment.

PALS WEBBING SLOTS

Interior and exterior slotted webbing for storage of tools you need when the time calls for it.

REFLECTIVE STRIPING

Hi-Vis reflective striping allows for better visibility.

ARSENAL® GEAR STORAGE:

HOIST BUCKET SERIES

DIFFERENTIATED BY DESIGN:

THIRD-PARTY CERTIFIED TO A 4:1 SAFETY FACTOR

Haul your gear safely and confidently knowing it's third-party certified to a 4:1 safety factor.

HEAVY GAUGE STITCHING

Heavy gauge nylon stitching provides extra reinforcement and strength around all zipper, pockets, and openings on the bag.

PATENTED SAFETY TOP

Patented safety top closure buckles around handles of bucket to secure contents inside.

DURABLE FABRICS

Heavy duty woven fabric is extremely abrasion resistant.

5650T

REINFORCED BOTTOM

Lays down a firm foundation and delivers excellent wear and moisture protection for your tools.

* Note: lanyards and tools not included... Duh!

BELT & ACC. SERIES

DIFFERENTIATED BY DESIGN:

NICKEL PLATED HARDWARE

Nickel plated hardware is abrasion and corrosion resistant.

DURABLE FABRICS

Heavy duty woven and tarpaulin fabrics are extremely abrasion resistant.

NICKEL PLATED STORM DRAIN™

Patented Storm Drains™ keep tools and fasteners ventilated and dry; nickel plating is corrosion resistant to last over the long haul.

BELT LOOP ATTACHMENT

Belt loop on back of pouch easily attaches to worker's belts or fall protection harnesses, allowing for easy customization for worker's preference.

D-RINGS FOR TOOL LANYARD ATTACHMENT

D-rings on the interior and exterior for easy tool lanyard attachment for all at heights and FME/FOD applications.

CHILL-ITS® COOLING PRODUCTS

Some like it hot and some sweat when the heat is on. Find yourself on the latter camp no more with Chill-Its® Cooling Products. These babies aren't just a speed bump on the Highway to Hell, either. They're designed to give Heat Related Illness the cold shoulder and keep your mercury levels just the way you want them. Vests, bandanas, hydration vests, if it cools you down, we're ready to order it up.

COOLING PRODUCTS
// HYDRATION SERIES

CHILL-ITS® COOLING:

THE ANATOMY OF CHILL FACTOR X.

COOLING TECHNOLOGY

Using absorbent acrylic polymers, hyper-evaporative PVA, or microfiber material - these products activate easily and quickly to provide a cooling sensation.

SUN PROTECTION

Several Chill-Its® products provide a barrier between the worker and harmful UV rays.

CONSTRUCTION

Absorbent materials provide super-evaporative cooling for hours by wicking moisture away from the body.

FIND OUT MORE ABOUT THE TECHNOLOGY THAT
GOES INTO THE FULL LINE OF ERGODYNE COOLING
PRODUCTS AT: WWW.ERGODYNE.COM

THREE DIFFERENT TECHNOLOGIES. ONE PURPOSE: KOOLIN' THE GANG.

Heat and humidity sap worker productivity. Which is why the Evaporative Series works harder than a sled dog to provide up to 4 hours of consistent cooling relief. The secret? Three different hi-tech cooling technologies: a hyper-evaporative fabric, space age polymer cooling crystals and an advanced PVA material that holds water without feeling heavy. Let's face it, if there was a globally recognized Bandana Towel Technology University, Chill-Its® would have graduated Magna Cool Laude with honors.

SWEET COOLING RELIEF FOR YOUR INNER GREENIE.

MICROFIBER COOLING TOWEL:

Our new chemical free, non-toxic, cooling powerhouse. Microfiber technology activates instantly when wet, whether that be water or perspiration, and wicks moisture away from the body. Soft and absorbent when dry, and when wet provides sustained cooling for hours on end.

CALL IT COOL. JUST DON'T CALL IT A CHAMOIS.

PVA COOLING TOWEL (CT):

A hyper-evaporative material that's the latest in cooling innovation, this Poly Vinyl Acetal (PVA) material retains water while remaining dry to the touch to provide sweet cooling relief on those sweltering days. Flat earth society approved.

NON-ACTIVATED STATE

ACTIVATED STATE
PLUMPED UP AND READY TO WORK.

THEY PLUMP WHEN YOU CHILL 'EM!

ACRYLIC POLYMER CRYSTALS:

When soaked in cold water, these non-toxic, super-absorbent acrylic polymers expand and absorb just enough water to create a love potion #9 sensation for up to 4 hours. If sweet cooling sensation lasts more than four hours, please consult a physician☺.

CHILL-ITS® COOLING:

EVAPORATIVE SERIES

DIFFERENTIATED BY DESIGN:

COOLING TECHNOLOGY

Non-toxic, chemical free material is super evaporative and feels significantly cooler than ambient air when activated.

MICROFIBER CONSTRUCTION

Woven material is lightweight, soft and absorbent to provide all day comfort.

SUN PROTECTION

UPF 50 provides protection from the sun's harmful UV rays.

6602MF

BUT AT LEAST IT'S A DRY HEAT...

DRY VS. WET TECHNOLOGY EXPLAINED...

With more than 40 different cooling products to choose from in the Chill-Its® lineup, there have never been so many ways to cool down when the workzone starts to heat up. But why not just one more. This year we've added a new technology to our cooling quiver. We call it a Dry Vest. Yes, we've been preaching evaporation from the pulpit of cooling for decades, so now you're asking yourself WTF? Hang with us for a minute. Our trusted, tried, and true 6665 Evaporative Cooling Vest soaks up water and cools with the best of them using the evaporative process that powers most of our Chill-Its® product offering. But we've built a better mousetrap. We now have a patented "Dry Vest" to battle the heat. The outer and inner (next to the skin) layers are dry as the Sahara Desert. The inside chamber is where all the mysterious cooling science occurs. Simply open up the leak-free cap, fill with a half-liter of water, and you'll be cool as a cucumber for the rest of the afternoon...and well into the next day. All this with the added benefit of not soaking your workday clothes. Two cooling vests. Two technologies. One common solution - keeping your bad self the coolest on the work day block.

FIND OUT MORE ABOUT THE TECHNOLOGY THAT GOES INTO THE FULL LINE OF ERGODYNE COOLING PRODUCTS AT: WWW.ERGODYNE.COM

COOLING // DRY EVAPORATIVE TECHNOLOGY //

DRY evaporative cooling vest is a comfortable, lightweight and easy to (re)fill vest that puts the cool in cooling products. Did we mention it was DRY?

Activation: Fill vest with 400-600mL water, squeeze upward to activate.

Chill Factor: Cooling capacity of 59° F // 15° C below ambient air temperatures for up to 3 DAYS of chilling bliss.

COOLING // WET EVAPORATIVE TECHNOLOGY //

WET evaporative cooling vest is a super-absorbent wearable cooler that offers quick cooling relief.

Activation: Submerge in water 1-2 minutes, remove and blot dry.

Chill Factor: Cooling capacity of 64° for up to 4 hours of chilling bliss.

CHILL-ITS® COOLING:

ABSORPTIVE SERIES

DIFFERENTIATED BY DESIGN:

HIGH PERFORMANCE FABRIC

Technical fabric moves moisture away from body for fast evaporation.

ELASTIC

Elastic band components keep absorbent materials next to skin for an effective, secure fit.

TERRY CLOTH

Keeps perspiration out of eyes and away from hands for clearer vision and safer grips.

CHILL-ITS® COOLING:

PHASE CHANGE SERIES

DIFFERENTIATED BY DESIGN:

FLAME RESISTANT

Optional models with inherent modacrylic fabric meets ASTM F1506 performance requirements; classified CAT 1 per NFPA 70E.

PHASE CHANGE MATERIAL

Non-toxic, non-carcinogenic dielectric substance maintains a constant 64° F // 18° C temperature.

ADJUSTABLE FIT

Elastic straps and hook and loop closures let workers adjust the fit for optimal comfort.

HI-VISIBILITY

Optional models with ANSI-certified fabric and retro reflective tape offer conspicuity AND cool comfort.

6215HV

WHAT IS THIS THING, ANYWAY?

UP CLOSE & PERSONAL WITH THE PHASE CHANGE VEST:

- KEEPS WORKERS COOL + PRODUCTIVE
- 64° F // 18° C ONLY. NO MORE. NO LESS. LASTS FOR UP TO 4 HOURS REGARDLESS OF OUTSIDE TEMP
- FR PROTECTION ON PREMIUM MODELS
- IDEAL FOR EXTREME HEAT APPLICATIONS: FOUNDRIES, GLASS MANUFACTURING, PAPER AND PULP

SHAX® WORK SHELTERS:

POP-UP SERIES

DIFFERENTIATED BY DESIGN:

CANOPY VENTING

Double vented canopy for ventilation and easy airflow.

CANOPY

UV coating to block sun's rays and a PU coating to protect from the harshest elements.

REFLECTIVE AND REINFORCED

Reflective accents makes for great visibility during low light hours and reinforced corner provide additional durability at pressure points.

10x10 FOOTPRINT

10x10 footprint, versatile and durable shelter that provides long lasting relief from sun, wind, and rain.

ADJUSTABLE MECHANICS

Easy adjustable features for quick, convenient height adjustment.

6000

What is CPAI-84??

CPAI-84 is a flammability specification, written by Industrial Fabrics Association International (say that ten times fast!) as a voluntary industry specification. CPAI-84 (Canvas Products Association International) standard is widely used in the industry and has been adopted by states like California and New Jersey. It provides test methods for evaluating flame resistance of fabric and other pliable materials in camping tentage. It also provides performance criteria and certification guidelines for suppliers (that's us!) and labeling requirements that identify a tent as being constructed of flame resistant material and caution against action detrimental to the flame-retardant finishes.

N-FERNO® WARMING PRODUCTS:

THERMAL LINER SERIES

DIFFERENTIATED BY DESIGN:

HOOK AND LOOPS

Hook and loop detail to secure into a hard hat suspension for ultimate warmth during those cold fall and winter days.

REFLECTIVE DETAIL

Reflective accent for visibility when in low light conditions.

WARMING PACK POCKETS

For extra warmth during those cold winter days, place a warming pack into the liner pocket and enjoy hours of toasty relief.

LAYERING DETAILS

Layering systems allow you to choose the product that is right for your climate needs. More the layers, more the warmth.

FLAME RESISTANT AND NON FLAME RESISTANT OPTIONS

Depending on your needs, stay toasty warm and flame free in FR liners - you've got options!

DANGER STARTS WELL BEFORE ZERO //

Cold Stress is just as dangerous as Heat Stress — but with its sneaky symptoms, it often goes undetected until it's too late. Awareness is key. Being informed about the dangers of Cold Stress and the importance of breathing warm air can help save lives and keep workers warm, comfortable, and productive.

FROST BITE

SYMPTOMS: PALE, WAXY-WHITE SKIN COLOR; SKIN BECOMES HARD AND NUMB; USUALLY AFFECTS EXTREMITIES INCLUDING EARS AND NOSE.

RESPONSE:

- Move the person to a warm dry area and remove any wet/tight clothing that may cut off blood circulation.
- DO NOT rub the affected area, rubbing can cause skin/tissue damage.
- Gently place the affected area in warm (105°F) water. Do not pour water directly on affected area. Warming will take 25-40 mins.
- Once normal feeling, movement and color return to area, dry and wrap to keep warm.
- Seek medical attention as soon as possible.

HYPOTHERMIA

SYMPTOMS: FATIGUE/DROWSINESS; UNCONTROLLED SHIVERING; COOL BLUISH SKIN; SLURRED SPEECH; CLUMSY MOVEMENTS; IRRITABLE/IRRATIONAL/CONFUSED BEHAVIOR.

RESPONSE:

- CALL FOR EMERGENCY HELP IMMEDIATELY.
- Move the person to a warm dry area and remove any wet/tight clothing and replace with dry clothing or wrap in a blanket.
- Drink warm, sweet drinks (sugar water or sports-type drinks). Avoid caffeinated drinks.
- Have the person move their arms and legs to create muscle heat. If unable to do so, place hot packs in armpits, groin, neck and head. DO NOT rub the person or place them in warm water.

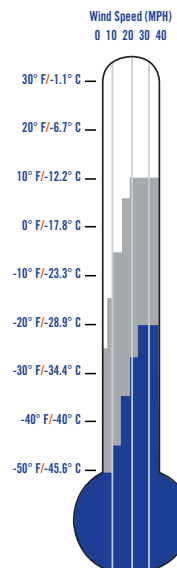

LOW TEMPERATURE + WIND SPEED + WETNESS = INJURIES & ILLNESS

- Little Danger (Caution) Freezing to Exposed Flesh within 1 hour:
- Danger Freezing to Exposed Flesh within 1 Minute:
- Extreme Danger Freezing to Exposed Flesh within 30 Seconds:

Source: OSHA; www.osha.gov

When the body is unable to warm itself, serious cold-related illnesses and injuries may occur, and permanent tissue damage and death may result.

Hypothermia can occur when land temperatures are above freezing or water temperatures are below 98.6°F/37°C. Cold-related illnesses can slowly overcome a person who has been chilled by low temperatures, brisk winds, or wet clothing.

TREX™ FOOTWEAR ACCESSORIES

Brian Boitano WISHES he looked this smooth on the ice. While we can't guarantee you'll be pulling off triple Salchows with the greatest of ease, you will be making your way past the trickiest of terrain without breaking a hip or chipping a tooth. How, you ask? TREX™ Ice Traction. TREX™ sneers at the frictionless ice world of winter and takes the sting out of the slick, snowy ground. Fear no terrain with TREX™.

CORE PERFORMANCE WORK WEAR®

Oh, it's on now! We've added an FR-compliant pullover, zip-up, and crew to the CORE Performance Work Wear® FR compendium of comfort. Now all your bases are covered in what can only be considered the best thing to happen to your body since the invention of skin. Every component is fit-perfect and ready to kick sweat out the door and keep cooling comfort and/or warmth in. One thing's for sure, quality layering is the not-so-subtle difference between a good day on the road and a bad case of road rash.

CORE PERFORMANCE WORK WEAR® :

FLAME RESISTANT SERIES

DIFFERENTIATED BY DESIGN:

COMPLIANT MATERIALS

All CORE FR™ Apparel meets requirements of ASTM F1506 and is classified according to NFPA 70E.

VISIBLE LABELING

Each garment has a visible FR tag including CAT level to ensure workers are wearing compliant gear.

MOISTURE WICKING

Moisture wicking material for multi-climate comfort.

COMFORTABLE DESIGNS

All garments are designed with comfort in mind - stretch fabric, flat seams, long tails, and relaxed fit: just to name a few...

// LAYER UP HOW TO ACHIEVE A HIGHER LEVEL OF ARC PROTECTION.

The only way you can achieve a higher level of arc protection is to layer up or purchase a heavier garment. Because of the air gaps (when layering clothing), the only way to determine the exact arc rating is to arc test the layers together.

Unfortunately, simple math won't work. You can't assume that if one garment has an 8 cal/cm² ATPV rating and the other garment has 10 cal/cm² ATPV rating, that when worn together they would rate an 18 cal/cm². To get an accurate rating, the layers must be arc tested together.

That's why we conducted ASTM F1959 arc testing on CORE FR™ garment combinations.

7440 OR 7445 + 7415 =

48 cal/cm²
CAT 4!!

HERE'S HOW THEY RATED: To equal this high of an arc rating with one garment, you'd need at minimum a 22 oz. fabric (that's HEAVY!). A layering system minimizes the bulk/weight while still achieving a high level of arc protection.

FR EXPLAINED

Each year, hundreds of burn injuries and deaths are recorded from workers exposed to open flame, high heat, flash fire or arc flash without proper personal protective equipment (PPE). Getting into the numbers a bit... In 2013, the US Bureau of Labor Statistics reported approximately 148 worker fatalities due to fire and explosions and 139 fatalities due to exposure to electricity. That's 287 too many in our book. It's estimated that 5 to 10 arc flash explosions occur in electric equipment every day in the United States, with more than 3,600 disabling electrical contact injuries. It doesn't take a math degree to see that arc flash and flash fires are a matter of life and death. So, what's the solution? We start with education.*

National Fire Protection Association (NFPA 70E)

- Electrical safety standard aimed at end users that operate in the electrical utility industry
- Serves as a "how-to" guide to electrical arc safety
- Defines the level of arc rating needed by clothing to perform specific hazardous tasks where the potential for an arc flash exists
- CAT levels provide a minimum ATPV or E_{BT} rating which is part of the testing requirements for ASTM F1506, the design standard for manufacturer's to follow when making flame-resistant clothing
- All CORE FR™ garments appropriate for applications governed by NFPA 70E will be noted by the CAT level tech tag

NFPA 70E CAT 2

National Electrical Safety Code® (NESC®)

- Voluntary standard published by the Institute of Electrical and Electronics Engineers (IEEE)
- Used by electrical utilities to implement safety procedures for utility workers
- Requires utilities to perform a risk assessment and then requires workers to wear flame-resistant clothing with an effective CAT rating equal to the risk
- Most utility workers need to be in a minimum 8 cal/cm² arc-rated garment which can also be achieved through layering
- All CORE FR™ that has received an arc-rating will be noted with this tech tag

ATPV 8.2 CAL/CM²

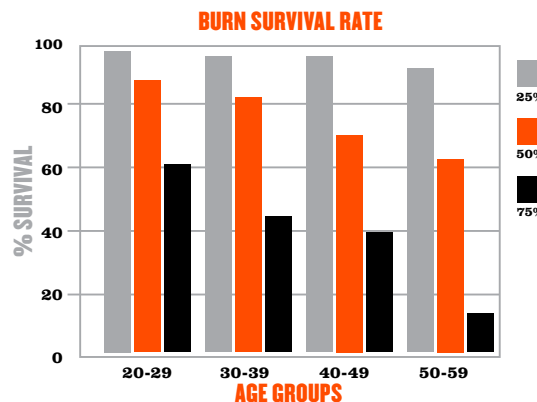

National Fire Protection Association (NFPA 2112)

- Provides requirements for design, performance, certification requirements, and test methods for FR garments for use in areas at risk from flash fires. If a potential for flash fire exists, employees are required to wear flame-resistant clothing.
- Rigorous 3rd party testing required, along with garment certification, which requires an independent third-party organization to review & certify a finished garment guaranteeing that the whole product (from fabric to thread to zippers, buttons and trims) meet the standard's specifications & testing requirements
- As part of this garment certification, NFPA 2112 also requires an ongoing audit for FR garment manufacturers to verify their quality control process and ensure compliance
- All CORE FR™ that has been 3rd party certified to this standard will noted with this tech tag

NFPA 2112

FR SOLUTIONS: STACK THE ODDS IN YOUR FAVOR

When arc flash and flash fires are a risk, it's no time to cut corners especially when it comes to your last line of defense – the clothes you wear. That's why choosing trusted fabrics is not only mission critical, it also can be life-saving. These industry-leading, US fabric manufacturers use top notch materials to ensure compliance and superior comfort, quality, durability – and, most importantly, protection against arc flash and flash fires.

* CDC, NFPA, NSA & BLS

FLAME RESISTANT COLLECTION:

BECAUSE FR DOESN'T HAVE TO SUCK.

We've tackled many a worker issue over the past three decades – none as serious or mission critical as FR. And so, we couldn't be more proud to add CORE Performance Work Wear® FR to our top flight, battle-tested lineup of Tenacious Work Gear®. Made of the best fabric technologies on the planet that provide certified arc and flash fire protection – all designed with worker comfort, performance, and even swagger in mind. This fashion-forward, flame-squelching gear would make even Vulcanus Rex himself stop and think twice.

In this handy dandy overview, you'll find a selection of products designed to serve and protect. The best part {we humbly think} are the bountiful protective solutions contained herein that will take care of workers on the job and, most importantly, ensure they get home safely at the end of each day and back on the job tomorrow.

PICK ON SOMETHING YOUR OWN SIZE

Put those middle school memories to bed because fitting in couldn't be easier with our Tenacious Work Gear® coming in a wide range of sizes and styles. No more sitting by yourself in the cafeteria because you wore a New Kids On The Block shirt two years too late or your hyper color tee went through the dryer and stopped working. Visit www.ergodyne.com for sizing.

**ProFlex®
Gloves**

Measure around the palm. **DO NOT** include the thumb area. Use the size chart across the bottom of this page to double check your size choice.

**ProFlex®
Wrist Supports**

Measure around the smallest part of the wrist.

**ProFlex®
Wrist Wraps**

Measure around the smallest part of the wrist.

**ProFlex®
Elbow Supports**

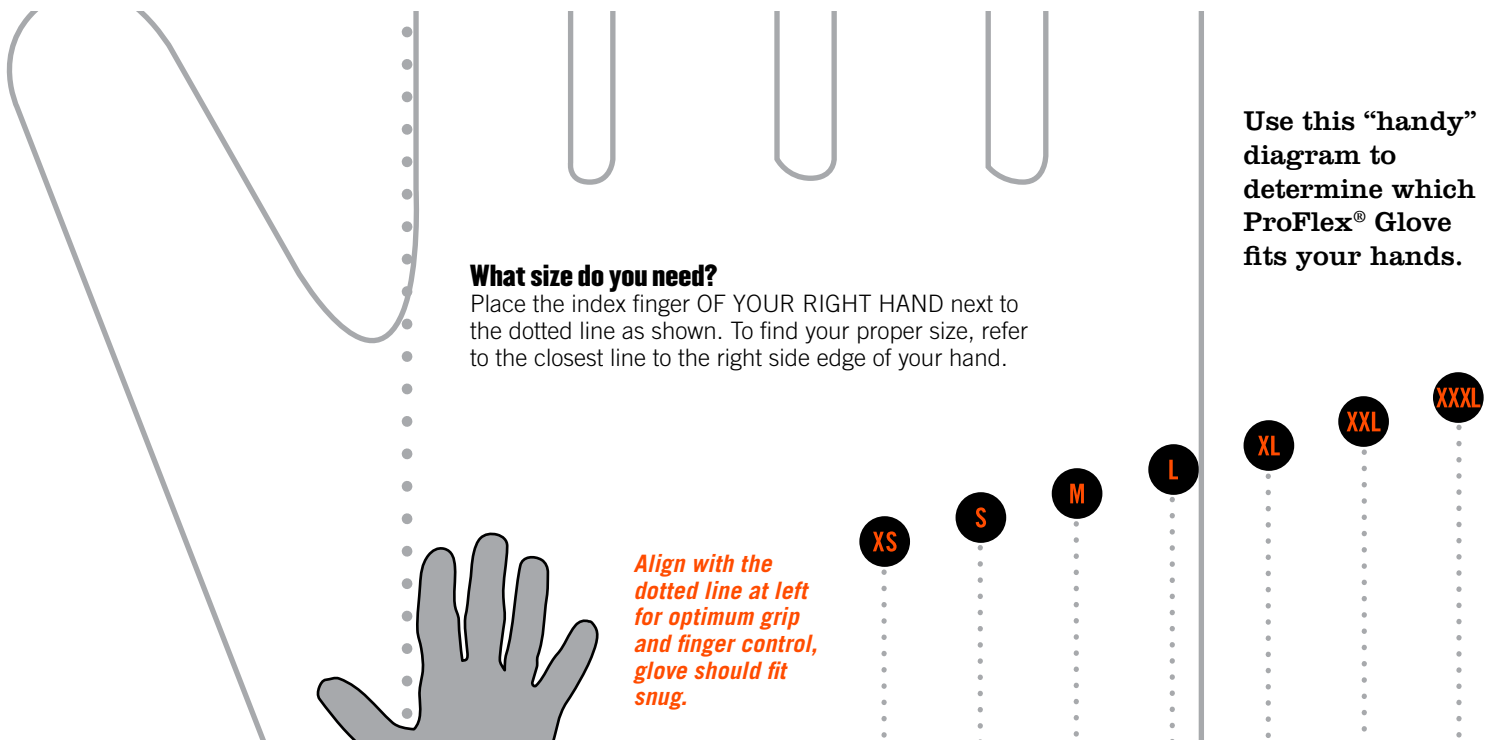

In a relaxed position, measure around the widest area of the forearm just below the elbow. For best fit, an elbow support should sit about 2-3 finger widths below the elbow crease.

**Ergodyne®
Knee Sleeves**

Measure around the center of the knee with the knee extended.

**ProFlex®
Back Supports**

Measure around the waist. A support should fit snugly, but not so tightly that it cannot be cinched firmly when ready to lift.

**N-Ferno®
Base Layer Bottoms**

Use standard waist size measurement.

**N-Ferno®
Base Layer Shirts**

If you are not comfortable with snug fitting compression garments you may want to upsize on the base layer ripped fit models.

**N-Ferno®
Outerwear Jacket**

Bring tape measure around the widest part of your chest, under your arms, completely around your torso.

**N-Ferno®
Outerwear Bibs**

Use standard waist size measurement.

SIZE UP THE SITUATION

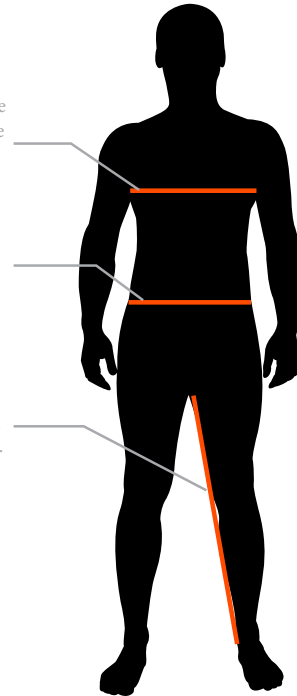

Improperly sized gear is a prime cause of heartache and sadness. Remember when you showed up at school wearing high-water pants? Of course that's nothing compared to the crack-tacular combination of too-short shirt and too-loose pants. Don't let these calamities occur. Your gear will be more effective and comfortable if you choose appropriate sizes.

CHEST: Measurement should be taken around the fullest part of the chest with arms down, just under the arms and across the shoulder blades.

WAIST: Measure around waist (not pulling tightly) at the height you prefer to wear the waistband.

INSEAM: Take a pair of pants that fit you well and measure from the crotch to the bottom of the leg.

BASE LAYER SHIRT MODEL 7415

	SMALL	MEDIUM	LARGE	X-LARGE	2X-LARGE	3X-LARGE
CHEST	36-38" 92-97 cm	39-42" 99-108 cm	43-46" 109-117 cm	47-50" 118-127 cm	51-54" 128-137 cm	55-58" 138-147 cm

*Please note: this model will shrink in the wash, so if measurements are in between sizes, buy the larger size.

A Life Well Lived
Tenaciously

Do not burn yourselves out. Be as I am — a reluctant enthusiast... a part-time crusader, a half-hearted fanatic. Save the other half of yourselves and your lives for pleasure and adventure. It is not enough to fight for the land; it is even more important to enjoy it. While you can. While it's still here. So get out there and hunt and fish and mess around with your friends, ramble out yonder and explore the forests, climb the mountains, bag the peaks, run the rivers, breathe deep of that yet sweet and lucid air, sit quietly for a while and contemplate the precious stillness, the lovely, mysterious, and awesome space. Enjoy yourselves, keep your brain in your head and your head firmly attached to the body, the body active and alive, and I promise you this much; I promise you this one sweet victory over our enemies, over those desk-bound men and women with their hearts in a safe deposit box, and their eyes hypnotized by desk calculators. I promise you this; You will outlive the bastards.

– Edward Abbey
